INTRODUCTION

Personalise. Reinvent. Transform.

TMX Designs was founded in 2018 with the goal of creating bespoke interior design and refurbishment services. Our mission is to bring your vision to life by creating a personalised, beautiful, and functional space. We design and install each project, working with a trusted network of UK furniture, home accessory, art, and home design professionals. Our team is fully insured. Our clients include homeowners, tenants who want to transform their rental property, landlords, property developers, and estate agents. From luxe to mid-range, we'll reinvent each room to create a modern, fresh, and vibrant space with loads of character.

BESPOKE INTERIOR DESIGN & SHOW HOMES

We cater for show homes to private residents, rental units, corporate spaces, development projects and any space that requires bespoke design.

The design process is extremely personal which is why we work closely with you ensuring we transform your space to the smallest of details. While luxurious, stylish, we prioritize layout, function, and flow to support your lifestyle or workflow. We love what we do, and it shows in our finished interiors. The TMX Designs team takes great pride in the fact that most of our clients are word of mouth referrals or repeat customers who return for new design projects.

RECENT PROJECTS

FURNITURE RANGES

We have 2 furniture ranges to choose from to achieve your goals for design aesthetic, function, and budget.

The growing market for letting, sales, and relocation have created a demand for fully furnished and functional short and long-term rentals. With our design services, estate agents can generate the highest return on investment properties with our move-in ready, turn designs.
